

Assignment 2

Generating Ideas and developing thesis.

Use brainstorming to generate ideas on the following topics. Group related ideas together and identify key sub-topics/main ideas. Write a clear and strong thesis statement for each topic.

1. For centuries, important parts of education have remained skills such as reading, writing, and numeracy. However, with the technological revolution, it is now believed that computer literacy is the fourth necessary skill that must be taught and given equal attention. Discuss the necessity of computer literacy as the fourth key skill along with reading, writing, and numeracy.
2. Universities/Colleges should have a compulsory “Exercise Hour” for both teachers and students keeping in view the overly sedentary lifestyle of the 21st century. Elaborate the need for a mandatory “Exercise Hour” in educational institutes.
3. Importance of Governmental Financial Support for Retired Sportspersons

Follow the pattern given below:

Thesis: (Topic + Argument).....
